love in the time of global warming with betty and veronica and zombies lives up to all the promise in its title it s the story of two romances a love triangle and zen relationships set in riverdale muskoka ontario canada during the time when planetary overheating made it look like the end of the world as we know it

cicero and his friends a study of roman society in the time of caesar readers into the heart of ancient rome offering an immersive look at one of history s most defining eras through the eyes of the eloquent statesman cicero gaston boissier paints a vivid portrait of a society teetering on the edge of transformation where politics philosophy and personal ambition collide an absolute masterpiece boissier brings ancient rome to life with stunning detail and insight cicero s struggles feel surprisingly modern and the book offers an engaging mix of politics philosophy and personal drama a must read for history lovers a fascinating and well researched book that offers a deep dive into roman society the characters are vividly drawn and the analysis of political maneuvering is insightful some sections are a bit dense but overall it s a rewarding read boissier does a great job balancing historical accuracy with engaging storytelling cicero s friendships and rivalries provide a compelling lens through which to view this turbulent period the writing is sometimes heavy but the depth of information makes up for it an informative and scholarly work though at times it reads more like a detailed academic study than a flowing narrative while i appreciated the depth i would have liked more focus on the personal relationships within cicero s circle this book transported me straight to the heart of rome the historical figures felt incredibly real and boissier s insights into their ambitions conflicts and ideals made for a thought provoking read highly recommended for anyone fascinated by ancient history
